

Hair tint Color Erbe®

The hair tints Color Erbe®, of Natur Erbe®, are made on basis of natural substances 100% vegetal, they do not cause irritation. They do not contain ammonia, resorcinol, nonoxynol, nor SLS (**selective laser sintering**).

Thanks to the vegetable extracts of seaweed kelp, mallows, chamomile, nutshell and henna, the colorants Color Erbe®, besides coloring, nourish and protect the hair, even the most delicate.

It protects and maintains the hair's vitality and the environment, because its components are biodegradable in more than 90%.

They exist in a vast scale of colors: dark blond, copper blond, Venetian red, mahogany, black blue...
